COMMUNICATIONS & INFORMATION SHARING SYSTEM STATUS REPORT

In our July 7, 2004 status report regarding your Board's motion to assess the feasibility for an automated County/Region Communication and Information Sharing System, we indicated that based on a review of the final draft report by participating departments, one department identified issues regarding a proposed pilot study that required resolution before the report could be distributed to your Board. After meetings with this department, the report, with minor revisions, is now acceptable to the department.

My office will re-circulate the updated report containing the recently agreed upon changes to all participating departments for their review and re-approval prior to submitting the final report to your Board by August 31, 2004. If you need additional information on the status of the report, please contact me at 213.974.2008 or John McIntire, Associate CIO, at 213.974.2154.
